**Financial Aid Update**

Diane Drebin, Fayne Griffiths, Darcie Iven & Shelly Shaw gave information on various Financial Aid activities to promote campus and community awareness of financial aid and scholarships available to students.

- One upcoming event is “College Goal Oregon” which will be held on Saturday, 1/26 from 9-2pm in the Gregory Forum. Will provide assistance to those filling out FAFSA forms and help them submit electronically when they are done.
- Financial Aid Specialists are also available every 1st Thursday from 3-4pm for students to come in for individual help with financial aid/scholarship related questions or problems.
- Additional staff has been trained and the turn around time for the awarding process of financial aid has been drastically improved, from 14 weeks to 2 to 4 weeks.
- Docuware is now being used to process financial aid packages and has also helped cut down the processing time.
- The Oregon Opportunity Grant has increased its family income limits from $30,000 to $70,000. This should allow more students to access these funds.
- Internal survey supports data from Financial Aid/Scholarship area that shows 400-500 students per week are being advised and assisted during non-peak times.

- **Phase 2:** This will be our part of the work on SEM

This will be discussed again at next week’s Expanded Presidents Council meeting.

<th>Tuition Increase/Enrollment Impact</th>
<th>Joanne and Diane presented information regarding the enrollment impacts of tuition increase. Diane presented and walked through a handout outlining enrollment patterns at CCC when tuition increased, sharing information, and answering questions. Kate Gray asked if there was a way to build in a user narrative/demographic model that could also be used in marketing. Steffen Moller asked what common misconceptions seem to be out there and address those. It was also suggested to use High School Advanced College Credit Instructors as a way to “market” information that goes out to schools.</th>

<td>Transportation &amp; Logistics Statewide Certificate Program</td>
<td>Scott Giltz shared information on our Transportation and Logistics Certificate program which was state approved and started last summer. Demand in this field is high across the state and many other colleges would like to get in on this certificate program. A statewide certificate is now being proposed, with CCC taking the lead role in proposing the program to the state. Presidents Council recommended that this 19 credit certificate program be presented at the next college board meeting for their approval.</td>

Fireside chats have brought some questions and observations to light regarding the minimum education level for the VP of Instruction. After discussion and thought process, the education level will be a Masters degree, not PhD as originally thought. This will broaden the applicant pool of well qualified applicants.

Budgets for next year are being discussed. Information has gone out to VP’s, who have talked with their Deans, who are now meeting with their divisions and department chairs to address budget process, concerns and help in identifying ideas for cost savings and revenue generating ideas. Bring any cost saving ideas back to next weeks meeting.
